NEW EXAM!

FUNDAMENTALS OF
CYBERSECURITY

Graduate Sooner!
Now even more options to help you get on the fast-track to your degree

The future is bright for students with knowledge of cybersecurity – it's the fastest growing field in IT. Whether you're studying Computer Science, Business or a related discipline, you now can earn upper-division level college credit and expand your knowledge base with a new DSST exam – Fundamentals of Cybersecurity. For just a fraction of the cost of a three-credit course, you can gain all the advantages of the DSST program.

Graduate Smart with everything DSST has to offer:

- Opportunity to demonstrate what you already know
- Available for all types of students including students already in college, high school students, adult learners, active duty, guard and reserve military members and veterans
- Credits accepted at more than 1,900 institutions
- Exams offered at more than 1,200 institutions
- Starts as low as $80 per 3-credit exam
- DANTES funds first attempts for active duty, guard and reserve military members

Exam Subject Areas:

Information Systems Security
Application Security
Governance
Compliance
Operational Security
Network Security
Physical Security
Environmental Security
Vulnerability Management
